Brushes

Rubberset Brushes for use with H R H Shellac Jar, Shellac, Paste, etc., the best for good work. Soft and flexible, will not shed their bristles.

1 inch wide	40c	65c
1½ inch wide	75c	80c
2 inch wide	\$1.00	

Artists' Round Bristle Brushes

For small pasting work, ¼ inch diameter, metal ferrules;
25c each

Lettering Inks

Higgins' Waterproof Black India Ink
¾ oz. bottle, 20c

Thaddeus Davids' White Letterine
Two oz. bottle, 30c

Book Cleaners

Flexible rubber, makes little or no muss, does not scuff or spoil paper surface.
In pieces 1¼" x 1¾", 10c each; \$1.00 per dozen

Book Press

Useful when marking or stamping book backs, and in repair work. Strongly made of maple wood. 16" long.

\$3.00 each

Paper & Card Cutter

Quicker and neater than scissors or knife for cutting tissue or heavy paper and cardboard. With reasonable use one of these machines will last a lifetime. When the blade becomes dull

it is easily detached and re-sharpened; all parts are adjustable to wear. The table is ruled into half-inch squares and fitted with adjustable graduated rule gauge, insuring straight and true cuts.

No. I with 6-inch blade \$2.00
" II with 8- " 2.50

No. III with 10-inch blade \$3.00
" IV " 12- " " 5.50

The Ideal Moistener

For dampening gummed materials, envelope flaps, labels, etc. Made of glazed white porcelain with nicked polished metal parts, can be quickly and properly cleansed and therefore kept sanitary. The wheel revolves without resistance or noise; no sponge or felt to fill up and become sour. Has rubber knobs underneath.

\$1.50 each.

Postal or Express charges are additional in all cases

H R H Shellac Jar

Specially designed by us for library use. Entirely new in idea; prevents waste, keeps the shellac from evaporating or being spoiled by light, and preserves both the shellac and brush in good condition ready for instant use.

The H R H Shellac Jar is eight inches high, four inches wide, is substantially made of earthenware and is built with a shelf inside for the drainage of the brush. After using simply hook brush over bar on inside of cover, drop brush inside jar, and put on cover; everything will then be found ready when next wanted.

~~\$7.00~~ each. (This price does not include Brush.)

\$2.50

Shipping weight 6 lbs.

H R H White Shellac

This is an excellent grade of white shellac, carefully and properly prepared from our own formula, specially for book work. It is the result of much experimental work in our own Bindery and we recommend it with confidence.

One pint tins, **\$1.10**

One-half gallon jugs, **\$2.50**

One quart tins, **1.50**

One gallon jugs, **4.50**

Prices subject to market variations.

H R H Book Wax

For use after shellacking, ensuring a hard, waterproof surface and preventing the occurrence of white spots. A specially selected grade of wax, one we make use of ourselves.

Half pound tins, **45c**; one pound tins, **80c**

H R H Flexible Glue

The best of its kind for Library work, all ready mixed, simply requires to be heated. This glue will not crack or chip after it has set.

One pound tins, **50c**; two pound tins, **85c**

Gluey Paste

An excellent mixed paste, quick drying and strongly adhesive.

One pint jars, **30c**; one quart jars, **50c**; one gallon jars, **\$1.40**

Paste Powder

For those who prefer to make their own paste; economical, easily prepared with boiling water.

One pound packages, **25c**; four pound packages, **75c**

Postal or Express charges are additional in all cases

We are also Manufacturers of

The Universal Magazine Binder

The most efficient low-priced locking Binder obtainable. There is nothing finer sold. Fitted with steel retainer rods and a patented hidden locking device that effectively prevent the magazine being extracted by unauthorized persons.

The UNIVERSAL MAGAZINE BINDER is made in five different attractive styles and only from the best of materials. Write us for a full descriptive price list.

The H R H Spring Back Binder

A familiar type of Binder but made a little better and stronger than is usual. Built with two strong, well-tempered springs in the back binding which grip the contents securely; while magazines may be easily inserted in or removed from this Binder they will not readily pull out. Made in three different styles.

Full particulars and prices on application.

The H R H Portfolio

An expanding portfolio that will hold firmly and securely magazines, pamphlets, catalogs, prints, photographs, maps, manuscripts, typewritten sheets and other loose papers. Can be laid flat on the shelf or stood upright. May be lettered on back as a book. Unlike portfolios of the bellows variety, it is always compact and neat-looking whether holding a few prints or six, or even twelve, issues of a magazine.

Strongly made to be serviceable, yet not expensive.

Samples forwarded for inspection purposes.

The New Revolving Dictionary Stand

One of the most convenient Library accessories we have introduced. For large, heavy or bulky Reference Books. Saves handling of books, thus ensuring to them less wear and tear and a longer life. Presents the book at the proper angle to the eye. Stands on any flat surface; is quite portable; can be turned freely in any direction. May be easily moved from one table to another.

Descriptive folder sent on request.

Book Display Stand

Specially constructed for use in Public Libraries for the display of newly acquired books. An attractive addition to the appointments of a Library and a great convenience to Library patrons.

Write us for prices.

H R H GLOOPASTE

"It Sticks Tight"

This is the name of a Paste we have been using in our own Bindery for a number of years. Only after giving it the most thorough tests do we now recommend it to the Bookmending Departments of Public and School Libraries as an excellent all-round Paste.

H R H GLOOPASTE is primarily a Bookbinder's Paste prepared especially for book work, but it is just as good for office or desk use. It is soft and creamy, works very smoothly and has splendid sticking qualities. It may be used directly from the container but can be thinned by adding water.

H R H GLOOPASTE is a pleasant paste—it is pleasant in looks, pleasant in smell and pleasant to work with. You will like it, and then — it costs a little less.

Some other

H R H PRODUCTS

All designed expressly for Library use

H R H BOOK LACQUER

without a doubt the best for waterproofing and preserving the covers of books. Those Librarians who have purchased books that have been sprayed by our process are familiar with the handsome results obtained by using this Lacquer.

H R H WHITE SHELLAC

is still the "stand-by" of many Librarians. There is no finer shellac than this, prepared from our own formula, the result of years of experience.

H R H BOOK WAX

is an excellent grade of wax and is used when book covers have been treated with shellac. It results in a fine, hard, waterproof surface. Covers that have been brushed with H R H BOOK LACQUER do not need this wax.

H R H SHELLACQUER JAR

unique in idea and a boon to the Book Repair Department. Prevents waste and keeps the brush and the Shellac or Lacquer always in good condition ready for instant use.

The UNIVERSAL MAGAZINE BINDER

There is no finer, more practical or more efficient magazine binder sold than the Universal Magazine Binder. Fitted with a hidden automatic lock preventing extraction of magazines by unauthorized persons.

Magazines are quickly inserted and are preserved in a clean, sanitary condition. Well made, highly attractive in appearance, allows the magazine to open freely and flat, is light in weight although strongly built, and fits comfortably into the hand.

The H R H SPRING BACK BINDER

A familiar type of temporary binder, but made a little better and a little cheaper than usual.

The GEM BINDER

An accumulating file-binder for use with thin publications. May be used with a single copy or for a complete volume.

RED-FIBRE COVERS

A new inexpensive Binder for covering current periodicals placed in Reading Rooms and those circulated outside the Library. Made from a strong hard-wearing paper stock, easily and quickly attached, may be used over and over again. Send for a sample.

THE H. R. HUNTING COMPANY, INC.
MYRICK BUILDING, SPRINGFIELD, MASSACHUSETTS

On the Preservation and Waterproofing of Book Covers

The covers of all newly acquired cloth-bound Library and School books should be given an immediate coating of a good grade of shellac or a specially prepared book lacquer.

This will not only preserve intact the original newness of appearance, the brilliancy of the covering materials, colored inks and gold-stampings, but it will add to the wearing qualities of the cloth and so give the books a longer life of usefulness.

Book covers so treated can always be kept in a clean, sanitary condition; all dirty hand marks, mud stains, rain spots, etc., may be removed easily and quickly with a little water.

We supply to Librarians two entirely different preparations for the preservation and waterproofing of book covers.

For those who prefer shellac, the old "stand-by," we recommend H. R. H. WHITE SHELLAC, the finest brand we know of; as with all shellacs and most varnishes it is necessary to give shellacked covers an after-treatment with book wax to prevent the formation of white spots.

Our newest preparation, H. R. H. BOOK LACQUER, needs no wax; it is easily applied with an ordinary clean brush or with a spraying outfit.

THE H. R. HUNTTING COMPANY INC.
MYRICK BUILDING, SPRINGFIELD, MASS.

THE H. R. HUNTTING COMPANY INC.

H. R. H. Book Lacquer

is the product of a long series of thorough tests in our Bindery. It protects the covers of books and imparts a smooth, hard, waterproof surface, one that will not whiten where spots of moisture may fall.

H. R. H. BOOK LACQUER adds to the wearing qualities of the cloth. You can

wash book covers that have been treated with H. R. H. BOOK LACQUER. No after-treatment with wax is needed.

One-half pint tins, .60
One pint tins, .90

One quart tins, \$1.40
One gallon tins, 4.25

Be sure your book is thoroughly dry before applying and use a clean brush. Do not mix any other preparation with H. R. H. BOOK LACQUER, if it shows a tendency to thicken by reason of evaporation add a little

H. R. H. BOOK LACQUER discourages vermin. Here is a report we have received from the Virgin Islands:

"About a year ago you sent me some book covers treated with H. R. H. Book Lacquer and to be submitted to the cockroach and insect test. For nearly one year these samples have been lying around a printing office. I return them herewith under separate cover unharmed. The place was much infested with insects, especially cockroaches, which destroy book covers."

All shellacs will whiten where moisture may fall unless the treated surface is given an after-application of wax. This wax should be rubbed on with a clean cloth when the shellac has set and the surface then polished with another clean, dry cloth.

H. R. H. Book Wax

For use after shellacking, ensuring a hard, waterproof surface and preventing the occurrence of white spots. A specially selected grade of wax, one we make use of ourselves.

While H. R. H. Book Wax can be used with very great advantage on book covers that have been treated with Shellac, it is not necessary on covers where H. R. H. Book Lacquer has been applied.

A Combination Offer!

The present price of
Webster's New International Dictionary
and of

The New Standard Dictionary

bound in Library buckram, with marbled edges, and indexed, is \$16.00 each. We offer you either of these two Dictionaries and the

H. R. H. Revolving Dictionary Stand

if ordered together

at a discount of ten per cent from the combined prices
listed on this sheet

Special Reënforcement of End Pages of Dictionaries, Atlases, etc.

The first few and last few leaves of all large books of reference receive very hard usage and soon crumple or become torn and dilapidated. To avoid this we reënforce these end sheets with a special grade of crinoline or tulle; this stiffens and strengthens the leaves, keeps them perfectly flat, yet in no way obscures the type matter.

The additional cost of this reënforcement work is around **\$2.00** per volume, according to size of book and the number of leaves treated. This is repaid many times over in the lengthened life of the book.

We are also the makers of

Metal Dictionary and Atlas Desk

A sturdy metal Reading Desk designed especially for large heavy Atlases and Dictionaries. Constructed of heavy angle steel, all joints hand-riveted; rigid, simple in design and practically indestructible. Top is of well-seasoned wood mahogany-finished.

Details:

30" high in front, 34" high in back; top surface is 22" wide by 15"; rubber casters on back legs, rubber anchor bases on front legs; the whole finished in mahogany.

Price \$12.50, f.o.b. Springfield, Mass.

THE H. R. HUNTTING COMPANY INC.
MYRICK BUILDING, SPRINGFIELD, MASS.

A Portable Metal Dictionary or Telephone Table and Stool

A very strong and compact table-stand with a multitude of uses. Makes an exceptionally good combination used with the H. R. H. REVOLVING DICTIONARY STAND. Very practical and convenient. All metal except top; well-braced angle steel throughout; will withstand hard usage although comparatively light and easy to handle.

Details:

TABLE — 20" long, 14" wide, height 26"; hardwood top.

STOOL — 17½" high, comfortable 13½" diameter hardwood seat.
Finished in olive-green enamel.

Prices:

TABLE **\$6.50**

STOOL **\$4.50**

Table and Stool ordered together **\$10.00**
f.o.b. Springfield, Mass.

THE H. R. HUNTING COMPANY INC.
MYRICK BUILDING, SPRINGFIELD, MASS.

The H. R. H. Revolving Dictionary Stand for Table and Desk Use

Originated by us for use with large, heavy or bulky Reference Books. Saves handling the volumes thus lessening the strain on the bindings and ensuring longer lives to the books. Turns freely upon a circular base at the lightest touch and presents the opened book to the eye at the proper angle. Will stand on any flat surface, occupies no floor space and, being quite portable, is easily moved from one table to another.

Top surface is 23 inches wide by 11 $\frac{3}{4}$ inches deep. Has a rise of from 1 $\frac{1}{2}$ inches in height in front to 5 $\frac{1}{2}$ inches in height at back.

Genuine Quartered Oak, Light or Medium Antique Oak finish	\$8.50
Genuine Quartered Oak, unfinished, natural wood	8.00
Gumwood, finished in Mahogany	9.50

The Revolving Catalog Stand

is a larger size of the Dictionary Stand; for the United States Catalog, large atlases and such reference books as Bradstreet's and Dun's Guides.

Top surface is 25 inches wide by 14 inches deep. Has a rise of from 1 $\frac{1}{2}$ inches in height in front to 7 inches in height at back.

Genuine Quartered Oak, Light or Medium Antique Oak finish	\$10.50
Genuine Quartered Oak, unfinished, natural wood	10.00

The Junior Revolving Stand

A smaller size, is correct for City Directories and similar reference works.

Top surface is 14 $\frac{1}{2}$ inches wide by 9 $\frac{3}{4}$ inches deep. Has a rise of from 1 $\frac{1}{2}$ inches in height in front to 5 inches in height at back.

Genuine Quartered Oak, Light or Medium Antique Oak finish	\$6.00
Genuine Quartered Oak, unfinished, natural wood	5.50

All Prices are f.o.b. Springfield, Mass.

MYRICK BUILDING, SPRINGFIELD, MASS.**

Four Combination Offers

Webster's New International Dictionary and Funk & Wagnall's New Standard Dictionary, bound in buckram cloth, with marbled edges and indexed, the latest unabridged editions, cost \$16.00 each.

We will supply the latest edition of either of the two Dictionaries together with our Metal Desk, or Table-Stand, or H. R. H. Revolving Dictionary Stand, at the following combination prices:

No. 1 The Metal Dictionary and Atlas Desk with one of the two Dictionaries **\$25.65**

No. 2 The Portable Metal Dictionary or Telephone Table with one of the two Dictionaries **20.25**

If the Stool is added the total combination will be \$23.40.

No. 3 The Portable Metal Dictionary or Telephone Table with the H. R. H. Revolving Dictionary Stand, Oak style, and one of the two Dictionaries **27.90**

If the Stool is added the total combination price will be \$31.00.

A Mahogany style H. R. H. Revolving Dictionary Stand will be substituted for the Oak style for an additional 90 cents.

No. 4 The H. R. H. Revolving Dictionary Stand, Oak style, and one of the two Dictionaries **22.05**

A Mahogany style H. R. H. Revolving Dictionary Stand will be substituted for the Oak style for an additional 90 cents.

All Prices are f.o.b. Springfield, Mass.

The UNIVERSAL NEWSPAPER STICK

the most practical, durable and convenient Newspaper
Holder manufactured.

Automatically accommodates newspapers of any thickness.

Has no rubber bands to break or stretch.

Has screwed-in pegs which absolutely cannot come out.

Its two hard-wood rods are fastened at the top by a nickel plated hinge connected with a coil spring which compensates for any number of sheets. The lower end is fitted with a notched metal trigger, working against a stiff spring in a buried groove, locking the sticks at any desired distance apart; pressure is thus distributed evenly along the length of the newspaper and the customary tearing is prevented.

The three sharp metal pegs, screwed into the lower rod, fit accurately into holes in the upper rod. The whole mechanism is simple and durable; there is nothing about it to get out of order.

Papers are more quickly filed in this stick than in any other on the market; they are gripped tightly and are kept in the best possible condition.

Finished in Antique Oak and in two sizes:

Overall length 32" to hold papers up to 24" long, **85¢**

Overall length 34" to hold papers up to 26" long, **90¢**

What a Librarian says of the **UNIVERSAL PATENT LOCK MAGAZINE BINDER**

"The Binder that Binds"

"I may say, incidentally, that we have found these binders to be the most satisfactory of the binders we have had. We have been equipped with them for five years and we have found no reason for changing this opinion. They safeguard the magazines; they are easily adjusted and they are durable."

The Secretary of a large, influential private club says: "The Universal Magazine Binders have proved to be much more satisfactory than any of the various other binders used by this club during the past twenty years."

A Young Men's Christian Association Secretary writes: "We have tried a number of magazine binders in our reading room but we have never found any that have given such complete satisfaction as the Universal Binder which we have used for the past four or five years, and take pleasure in sending you this word of commendation."

The UNIVERSAL Patent Lock Magazine BINDER
has been adopted and is used almost exclusively by some of the
largest Public Libraries and Clubs in the country.

Made only by
THE H. R. HUNTING COMPANY, INC.
MYRICK BUILDING, SPRINGFIELD, MASS.

August 1928

THE UNIVERSAL BINDER

FOR READING ROOMS

in Public Libraries, Young Men's and Young Women's Christian Associations, Clubs, Colleges and Hotels, Physicians' and Dentists' Reception Rooms, Lawyers' Offices, etc.

Points where it Excels

- Magazines are quickly inserted.
- Has a patent, hidden Lock which automatically locks the magazine in the binder and
- Protects the publication from pilferers.
- Allows the magazine to open freely.
- Does not mutilate the magazine.
- Preserves its contents in a clean, sanitary condition.
- Adds attractiveness to the reading room.
- Is light in weight though strongly built.
- Fits comfortably in the hand making reading a pleasure.

THE UNIVERSAL MAGAZINE BINDER
is without doubt the
Most Practical and Most Efficient
of all Magazine Binders

The H. R. HUNTTING Co., Inc. SPRINGFIELD, MASS.

THE UNIVERSAL BINDER

THE UNIVERSAL MAGAZINE BINDER

is carried in stock in five styles in each of five sizes. Other sizes will be supplied to order.

THE FIVE STYLES

Style "A" is made of heavy binder's board covered with Holliston library buckram, green or maroon. (Other colors may be obtained to order at a slight increase in price.)

Style "B" is made of heavy binder's board, bound red leather back and with buckram sides to match.

Style "C" has a flexible cover, made of art fabrikoid, green, or brown Spanish leather finish, or black Morocco leather finish, lined with cloth; is washable and is moisture and germ proof.

Style "D" is made of heavy binder's board, covered with art fabrikoid, green or brown Spanish leather finish, or black Morocco leather finish, and lined with thin Keratol. Washable inside and out.

STYLES "C" and "D" form very handsome binders. They have all the appearance of high grade leather, and are especially recommended for libraries where there is much moisture or soot and dirt. They are sanitary and can be washed readily. Style "C" makes an excellent circulation binder.

Style "E" is a flexible cover binder made up in full black, heavy seal grain leather. This binder is used by some clubs and on Pullman trains.

PRICE LIST

Stock Sizes			Style A	B	C	D	E
No. I	for magazines	10 x 7	\$1.50	\$1.75	\$1.65	\$1.85	\$3.00
" II	"	11 x 8	1.70	2.00	1.95	2.10	3.50
" III	"	12 x 9	1.90	2.35	2.25	2.50	4.25
" IV	"	14 x 11	2.20	2.80	2.75	3.00	5.25

OTHER SIZES AT PROPORTIONATE RATES

The standard stock sizes as a rule accommodate one copy of a magazine; extra width and parts to accommodate several issues may be arranged for.

When ordering state exact size and thickness of magazine together with name of magazine. Unless otherwise ordered the name of the magazine will be stamped on the front two inches from the top. If special lettering is required, specify same when ordering and indicate position desired on the binder.

The name of a magazine is stamped in gold free. For all other lettering, such as name of library, there will be a charge of 15 cents per line of fifteen letters.

THESE PRICES ARE NET F. O. B. SPRINGFIELD

The H. R. HUNTING Co., Inc. SPRINGFIELD, MASS.

The H. R. H. SPRING BACK BINDER

To those who favor a Spring Back Binder, because of the ease and speed with which magazines may be changed, we recommend **The H. R. H. SPRING BACK BINDER** made with all the usual Hunting qualities—attractiveness, strength, durability and cheapness. This is far ahead of any similar binder on the market and is so constructed that the magazine will not pull or spring out.

It is carried in stock in the following five sizes, each in three of the styles (Styles A, B, and D) described on page 3:

PRICE LIST

Stock Sizes				Styles	A	B	D
No. I	for magazines	10 x 7			\$1.10	\$1.35	\$1.45
" II	"	11 x 8			1.20	1.55	1.65
" III	"	12 x 9			1.40	1.80	2.00
" IV	"	14 x 11			1.60	2.20	2.40

THESE PRICES ARE NET F. O. B. SPRINGFIELD

Other sizes will be supplied at proportionate costs. When ordering give exact size and thickness of magazine together with name of magazine. Unless otherwise ordered the name of the magazine will be placed on the front two inches from the top. If special lettering is required, specify same when ordering and indicate position desired on the binder.

The name of the magazine is stamped in gold free. For all other lettering, such as name of library, there will be a charge of 15 cents per line of fifteen letters.

H R H Portfolio and Magazine Cover

An expanding portfolio that will hold firmly and securely magazines, pamphlets, catalogs, prints, photographs, maps, manuscripts, typewritten sheets and other loose papers.

Can be laid flat on the shelf or stood upright. May be lettered on back as a book. Unlike portfolios of the bellows variety, it is always compact and neat-looking whether holding a few prints or six, or even twelve, issues of a magazine.

Has adjusting back, top and bottom flaps and, if desired, can be fitted with front flap also, giving contents complete protection from dust. Strongly made to be serviceable, yet not expensive. Made of stout binders' board plain lithographed or bound in brown vellum book cloth. Special sizes or bindings to order.

	10" x 7"	12" x 9"	14½" x 10½"	16" x 12"
Lithographed Board Covers	\$0.30	\$0.35	\$0.40	\$0.45
Covers bound in Book Cloth	.65	.75	.90	1.00

Discounts on quantities. Postage additional.

The orderly way—therefore the best.

Current copies of all such much used reference periodicals as the Wilson Publications, etc., should be filed in

UNIVERSAL VOLUME BINDERS

the issues are then always where wanted, are easy of reference and are preserved in trim condition.

Constructed on the same principles as the famous UNIVERSAL MAGAZINE BINDER with maple wood backs and steel retainer rods; light, strong and durable; hold their contents firmly and securely. Made specially wide in the back, in the correct size, and fitted with sufficient rods to take care of all issues until the bound cumulated volumes are published.

The set of seven, in style "A", for the Wilson Publications, is made up in assorted colors to assist quick recognition of each individual Binder. Titles are stamped in gold on the back binding.

PRICES

Style "A" Holliston Library Buckram, magazine size 10 x 7 **\$1.90** per Binder
Postage additional.

UNIVERSAL VOLUME BINDERS

are equally well adapted for holding accumulations of pamphlets, thin publications and magazines; we can provide them with backs $1\frac{1}{2}$ ", 2", or $2\frac{1}{2}$ " wide.

Write us stating sheet size of publication, number of copies Binder should hold and thickness in inches of this number of copies, we will be more than pleased to quote prices and show samples.

THE H. R. HUNTTING COMPANY INC.

A Special Binder for Publishers' Jacket-Covers

This will be found to be a most desirable addition to the appointments of a well kept Library. It is designed to bind in book form, in a presentable and convenient way, the paper jacket-covers placed by publishers around new books.

These covers usually carry a short synopsis or a criticism of the volume and an illustration that prove extremely useful to library patrons in the selection of books.

The Binder will hold jacket-covers to a thickness of nearly two inches. The covers are quickly fastened in and are held as securely as if sewed in; they are just as easily removed when new ones are substituted. Constructed so that the most recent book covers appear on the top.

Made in two styles, gold stamped on front "New Books"
or any other desired one-line title: -

Limp covers, bound full brown or green spanish leather finish fabrikoid,	\$1.35
Stiff covers, bound full black Caxton buckram,	.85

Postage Additional

Every Library should have at least one of these Publishers' Jacket-Covers Binders where it can be easily referred to by visitors. It will save much of the time of the Librarian and assistants.

The GEM BINDER

A low-priced but efficient means of filing and binding, in a permanent form, and from day to day, commercial and legal papers, journal and ledger sheets, bulletins, factory reports, magazines, newspapers, catalogs and loose leaves of all kinds.

Quite simple in idea but very effective; that is the reason why the GEM BINDER pleases those who use it. Papers are attached speedily and are bound in as neatly and as firmly as if sewed.

Style GB, flexible covers bound full fabrioid

Publications are filed in the GEM BINDER as issued; it is not necessary to wait until a volume is completed before having copies bound; you bind as you go along.

The GEM BINDER is always bookish in appearance; it is never much thicker than its contents, whether holding a few sheets or magazines to a thickness of two or three inches. There are no outside metal parts to scratch or mar a desk.

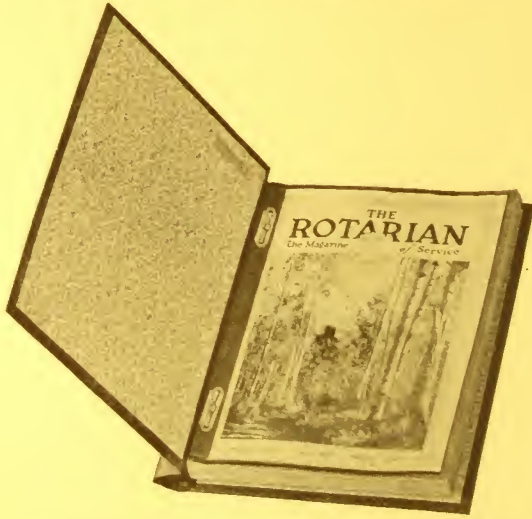

The GEM BINDER is made in a number of different sizes, from a size large enough for daily newspapers down to one small enough for pocket use, and in a variety of styles.

Made only by

**THE H. R. HUNTING CO. INC.,
Myrick Bldg., SPRINGFIELD, MASS.**

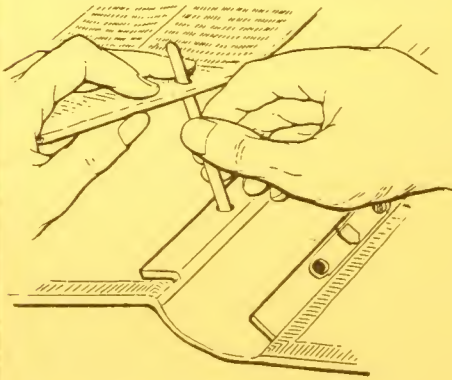

January, 1930.

THE GEM BINDER

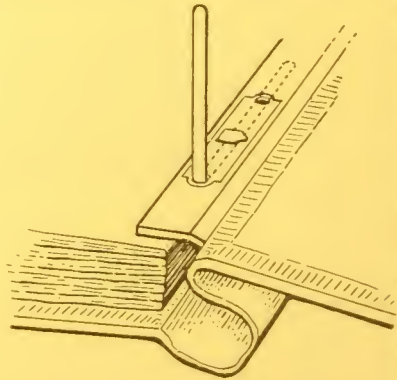

Style GA, stiff covers bound full black cloth

There is no more desirable binder than the GEM BINDER for filing and preserving publications of all kinds. It is particularly suited to thin periodicals, newspapers, pamphlets or loose sheets of every description.

Method of attaching Sheets or Periodicals

Method of locking Binding Prongs

The GEM BINDER is fitted on the inside with two hinged strips which grip the file of papers on each side along the binding edge. Attached to one of these strips are binding prongs or staples made from a special grade of brass. Holes are punched in the papers corresponding with the positions of these prongs, the latter inserted through the holes and through the hinged strip attached to the other cover of the binder. The prongs are then bent over and fastened under the center catch or lock on this hinged strip, as indicated in the cut above; the papers will then be found to be as securely bound in as though sewed.

THE GEM BINDER

The GEM BINDER is made in the following four styles:

- Style "GA" Stiff board covers, full black cloth.
- " "GB" Flexible covers, full Fabrikoid.
- " "GC" Press board covers, cloth backs.
- " "GD" Lithographed board covers, cloth backs.

Fabrikoid, as used for Style "GB", is an excellent substitute for leather, attractive in appearance, pleasant to handle, with splendid wearing qualities and much lower cost. We use either green or brown Spanish leather finish or we will make specially to order in black or red morocco finish.

Styles "GC" and "GD" are intended especially for use with commercial and students' loose sheets or wherever an inexpensive binder is required. We do not recommend these styles for larger size binders.

PRICE LIST

Stock Sizes	Style GA	GB	GC	GD
For sheets 10" x 7"	\$0.55	\$1.00	\$0.40	\$0.30
" 11" x 8½"	.65	1.10	.45	.35
" 12" x 9"	.85	1.40	.60	.50
" 14" x 11"	1.10	1.75	.75	.55
" 16" x 12"	1.65	2.25	—	—
" 22" x 18"	3.00	—	—	—
" 24" x 18"	3.15	—	—	—
" 24" x 22"	3.30	—	—	—

Postage or Express additional

The measurements given above are those of sheets to be bound in; the binders are slightly larger each way.

The GEM BINDER is made in four different widths or capacities—to hold sheets to a thickness of either 1 inch, 1¾, 2½ or 3½ inches.

When ordering state thickness in inches of papers the binder will be required to accommodate, we will furnish the nearest capacity.

The only tool necessary with these Binders is a punch or an awl. We recommend the Samson Punch at \$3.00 or the Cutter Punch at \$1.50; either will cut papers up to ¼ inch thick.

GOLD LETTERING

We will gold stamp a title, volume number, or firm name on the fronts of these binders at a charge of 15 cents per line of about 15 letters.

A sample GEM BINDER in any of our listed styles or sizes will be sent on approval, postage paid one way.

The RALEK BINDER

The Ralek Binder is a development of the GEM BINDER and is an accumulating binder for the daily filing of papers of all kinds. Its unique feature is a patented locking system which permits of the entire contents of the binder being removed, in a properly bound form, at the completion of a volume, or at the end of a period. The volume so removed is found to be fitted with end sheets and strong manila paper covers and is ready, without further binding work, for the transfer cases or shelves; the binder may then be refitted with new spare parts at an extremely small cost (average cost 50c), and a new volume of papers started.

The UNIVERSAL MAGAZINE BINDER

For Reading Rooms in Public Libraries, Young Men's and Young Women's Christian Associations, Clubs, Hotels, Colleges, Physicians' and Dentists' Reception Rooms, Lawyers' Offices, Rest Rooms, etc.

There is no finer, more practical or more efficient magazine binder sold than the Universal Magazine Binder. It is fitted with a hidden automatic lock preventing extraction of magazines by unauthorized persons.

Magazines are quickly inserted and are preserved in a clean, sanitary condition. It is well made, highly attractive in appearance, allows the magazine to open freely and flat, is light in weight although strongly built, and fits comfortably into the hand.

The H. R. H. SPRING BACK BINDER

A familiar type of temporary binder but made a little better and a little cheaper than usual. The magazine type has both covers hinged but the type for desk use has front cover only hinged.

SPRINGFIELD POST BINDER

Fitted with extension screw posts and sleeves. A strong, well made serviceable binder for Catalogs, Price Lists, Photographs and Commercial Sheets. Made in several types—with regular covered back, with open back, or with metal angle plate backs.

ECONOMY COVERS

One of the most inexpensive covers on the market. Specially designed for binding collections of typewritten or manuscript reports, pamphlets, thin publications, etc. Made from strong Red Rope stock and fitted with brass fasteners and washers. The size for letterheads (11 x 8½) costs only \$6.50 per 100.

SPECIAL COVERS and BINDERS

Our staff of skilled binders and our special facilities enable us to prepare Binders and Covers of almost every description and in any material. We welcome inquiries and will be pleased to quote prices on covers for special purposes.
